21 JULY -- Belgrade Borba, 22 Jul 50

Report -- Moderately cloudy during the day in southeastern regions, light thundershowers in the late afternoon, generally fair in other parts of Yugoslavia, light winds, temperature at 1300 between 29 and 32 degrees centigrade.

22 JULY -- Belgrade Borba, 23 Jul 50

Report -- Fair in all Yugoslavia except in northwestern regions, which had thunderstorms at the end of the day. Temperature at 1300 between 30 and 35 degrees centigrade.

23, 24 JULY -- Belgrade Borba, 24 Jul 50

Report for 23 July -- Fair or slightly cloudy, light variable winds, temperature at 1300 between 30 and 34 degrees centigrade.

Forecast for 24 July -- Generally cloudy at night, with local showers in northwestern regions. Showers will gradually spread to other parts of Yugoslavia. During the day variable cloudiness, in the afternoon very cloudy with local thunderstorms. Moderate winds. Temperature slightly falling.

25 JULY -- Belgrade Borba, 25 Jul 50

Forecast -- In northeastern and eastern Slovenia, slightly to moderately cloudy at night, generally fair in other parts of Yugoslavia. Increasing cloudiness in northwestern and northern regions in the afternoon, local showers in Slovenia. During the second half of the day light thunderstorms in Bosnia and Serbia. No changes are expected in the Primorje, Montenegro, and Macedonia. Moderate northerly winds. No change in temperature.

26, 27 JULY -- Belgrade Borba, 27 Jul 50

Report for 26 July -- Fair or slightly cloudy, except in northwestern regions, which were generally cloudy. In the afternoon increasing cloudiness in the Vojvodina. Light variable winds. Temperature at 1300 between 27 and 30 degrees centigrade; in the Primorje, from 30 to 34 degrees centigrade.

Forecast for 27 July -- Slightly to moderately cloudy, moderate winds, temperature slightly rising.

28 JULY -- Belgrade Borba, 29 Jul 50

Report -- After today's showers, which covered all Yugoslavia except Macedonia, the weather improved rapidly, so that it was moderately cloudy this morning, except in Serbia. During the day it was fair except in Serbia. Moderate northerly winds. Morning temperatures lower than yesterday. During the day temperatures rose to 30 degrees centigrade.

29 JULY -- Belgrade Borba, 30 Jul 50

Report -- Fair or slightly cloudy in the morning, except in northwestern regions, where it was slightly cloudy with local showers.

During the day clouds covered all Yugoslavia except Eastern Serbia and Macedonia, where it continued fair or moderately cloudy. Moderate variable winds. Temperatures in Slovenia between 25 and 28 degrees centigrade and in other areas between 30 and 33 degrees centigrade.

8, 9 AUGUST -- Belgrade Borba, 9 Aug 50

Report for 8 August -- Variable cloudiness, but slightly cloudy and fair in the afternoon in the Vojvodina, northern Serbia, and northern Croatia. Northerly winds. Southerly winds in the Primorje. Temperature at 1300 between 25 and 28 degrees centigrade.

Forecast for 9 August -- Considerable cloudiness, with possible light local showers. Variable winds. No change in temperature.

RAIN BENEFITS VOJVODINA FIELDS -- Belgrade Borba, 17 Jul 50

Belgrade, 16 July -- The drought, which has affected the entire country, was especially harmful to corn, vegetables, and grapes. However, the large amount of rain which fell yesterday afternoon and during the night is expected to improve the condition of the crops.

Rain began to fall throughout Serbia yesterday afternoon and stopped this morning. In the Belgrade-Nis-Boljevac sector a thunderstorm preceded the rain, but it did not cause any damage. In the vicinity of Zajecar, 7 liters of rain fell per square meter.

The rain was most beneficial to the fields in the Vojvodina, where the total precipitation was from 25 to 30 millimeters.

Rain began to fall yesterday at 1600 throughout northern, western, and central Bosnia and Herzegovina. By 1900, 28 millimeters of rain had fallen in the Banja Luka area, 23 millimeters in Sanski Most, and 18 millimeters in Livno.

TEMPERATURE VARIES IN DIFFERENT REGIONS -- Ljubljana Slovenski Porocevalec, 4 Aug 50

On 3 August 1950 at 1300 the temperature at various locations around Belgrade was from 35 to 38 degrees centigrade and in Rankovicevo the high was 39 degrees centigrade. At the same time, Planica in Slovenia had a temperature of only 9 degrees centigrade. However, after the rain, Belgrade and vicinity cooled off so that the temperature there this morning was the same as in Slovenia.

DROUGHT HITS BELA KRAJINA -- Ljubljana Slovenski Porocevalec, 4 Aug 50

The summer drought in Bela Krajina was especially severe in the villages of Adlesici, Vinica, Sinj, Vrh Zilje, Dalnje Nive, and Stari Trg. Even though the areas around the villages had some rain during the summer, the villages themselves had none.
